

**March 2012**

Urbangreen Projects were engaged as the landscape contractor at our property in Brighton.

Urbangreen Projects brought knowledge & expertise which we found was invaluable. Due to our busy lifestyle, they transformed our garden into a beautiful low maintenance landscape. They listened to our needs and added their own idea's to improve our original vision.

Urbangreen Projects provided a fully detailed quote which came in under budget and were happy to work alongside other trades during our renovation.

At all times we found Arron and his entire team to be professional, punctual and a pleasure to work with. We would highly recommend Urbangreen Projects for any residential Landscape works.

Shane Crawford & Olivia Anderson.
